EXAMINER'S AMENDMENT/COMMENTS

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The application has not been amended by the Examiner.

Drawings

The drawings as originally filed are approved.

Cited References

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The twenty eight (28) US patent documents and the two foreign patent documents constitute prior art cited by applicant which relate to toothbrush switches associated with the toothbrush electrical circuitry, and the packaging of the toothbrush. The most significant reference is the Blaustein et al reference 20020038772, which teaches that a flexible package having a recess 26 may be used to temporarily operate a switch button 16. No intermediate test button is disclosed.

Boyles teaches the use of motion selector button with a toothbrush. Stoltz teaches the use of a power operated toothbrush.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art does not disclose the use of a test button located between a package and an electrical device; in this case, a toothbrush for testing the operability of the electrical circuitry of the electrical device by depressing on the package and the test button the latter engaging a switch actuator of the toothbrush.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Summary

Claims 1-20 are allowed.
